Background

The Office of Sport is seeking input into the recently released Illawarra and Shoalhaven Regional Sport and Active Recreation Plan.

The plan represents a new approach to collaboration, planning and delivery of sport and active recreation activities and infrastructure and has been developed in collaboration with key stakeholders in each region and follow on from consultation throughout 2017 and early 2018.

The plan provides recommendations for activities and strategies that could be implemented in each region to support grass roots to elite level sport.

These strategies within each plan focus on outcomes that support improved participation, streamlined performance pathways, access to fit-for-purpose facilities, the delivery of valued sporting events and improved collaboration within the sector.

The plan provides a list of possibilities which will be prioritised by each region's Sport and Active Recreation Planning and Delivery Group over the next five years.

Feedback will guide the delivery of the plan and the consultation period for feedback closes at 5.00pm on 19 July 2018.

It is recommended that the Sports Board set up a sub committee to review the document and make a submission on behalf of the Sports Board.

Community Engagement

The Sports Board represent and consult with their sporting community to inform the submission.
