Convenor: David Pieresko

Attachments: 1. PN 3720 Attachment [↓](#)

Recommendation

That:

1. The Chief Executive Officer (Director City Services) be advised that the Shoalhaven Traffic Committee has no objection to the proposed traffic management plan (TMP) and associated traffic guidance schemes (TGS) for the NSW Aboriginal Rugby League Knockout Carnival 2022 (as per D22/391408), subject to the following:
 - a. Council does not support the use of on-street parking for this event and the event organiser is to submit additional supporting evidence identifying parking areas and increased parking capacity to accommodate the remaining number of attendees at off-street parking locations.
2. The recommendation be approved by the Director City Services under delegated authority from Shoalhaven City Council - refer MIN21.411.

Background

Since early 2020, Shoalhaven City Council has been assisting the South Coast Black Cockatoos with the preparation of the 50th NSW Aboriginal Rugby League Knockout Carnival.

A report was previously brought before Council's Ordinary Meeting on 25 February 2020, which provided background to this event being initially proposed (*CL20.32 - Koori Rugby League Knockout - South Coast Black Cockatoos - Event Support*). The following recommendation was carried:

"That Council:

- 1. Congratulate the Black Cockatoos on their success in winning the right to host the NSW Aboriginal Rugby League Knockout Carnival 50th Anniversary and thank them for their commitment to running the 2020 event in Bomaderry.*
- 2. Commit to allocating \$400,000 in the 3rd Quarter Review of the 2019/2020 Budget through an appropriate funding strategy to be determined, to ensure works are completed in time for the event.*
- 3. Note that the costs associated with actually running the event will be met by those other than Council.*
- 4. Immediately commence with necessary works to carry out all improvements at the Bomaderry Sporting Complex and Artie Smith Oval site in accordance with Plan Ref No.1007_40 (Rev1 Dated 11 Feb 2020), such that the event can be run by the Black Cockatoos over the long weekend in October 2020.*
- 5. Commend the staff involved in the expeditious preparation of the site improvement plan developed in close consultation with the organisers of the NSW Aboriginal*

TC22.39

Rugby League Knockout Carnival 50th Anniversary to enable this event to proceed in the Shoalhaven.”

As a summary, the NSW Aboriginal Rugby League Knockout is one of the largest Indigenous gatherings in Australia. The event draws a large number of participants, including more than 150 teams involved with the proposed activities and an estimated 10,000 people per day over the 5-day event.

The South Coast Black Cockatoos had previously won the title in 2019, giving them the right to host the subsequent event, which was also the 50th Anniversary in the event's history. This was originally proposed to take place on the October long weekend in 2020. However, due to Public Health Order restrictions at the time, the event was then rescheduled to take place in 2021.

Since this time, the event has been the subject of two traffic impact summary reports to Council's Executive Management Committee.

The first of these reports (CL21.166) was presented to Council's Ordinary Meeting on 3 August 2021 when the event was originally proposed to take place on 30 September to 3 October 2021. The traffic impact summary report identified potential risks and traffic concerns surrounding the proposed temporary closure of main arterial roads (including Cambewarra Road) and event parking in proximity to the Bomaderry Sporting Complex and Artie Smith Oval. This report also acknowledged that due to the number of participants and spectators attending the event and the overall impacts to the surrounding non-event community, it would be classified as a 'Class 1' event as per s3.2 of the NSW Government's 'Guide to Traffic and Transport Management for Special Events' ('The Guide').

Following the receipt of this report, Council provided the following resolution (MIN21.592):

That Council reaffirm its support for the South Coast Black Cockatoos hosting the NSW Aboriginal Rugby League Knockout Carnival and receive the report for information noting it has been postponed until October 2022.

From this resolution and subsequent rescheduling of the event, the event organisers proposed modifications to the layout of the event and for it to take place on 30 September to 3 October 2022. In summary, this involved separating the event across two sites, taking place at the Bomaderry Sporting Complex on Cambewarra Road ('Northern Playing Fields') and Shoalhaven Rugby Park on Flinders Road ('Southern Playing Fields'). Additional traffic management proposals and modifications were considered as part of this revised layout.

Following this, a second traffic impact summary report was presented to Council's Executive Management Team on 17 February 2022. From the receipt of this report, the following resolution was made (EM22.49):

With regard to the South Coast Black Cockatoos hosting of the NSW Aboriginal Rugby League Knockout Carnival 50th Anniversary, proposed to take place in October 2022, at the Bomaderry Sporting Complex, Bomaderry and Shoalhaven Rugby Park, South Nowra that Council;

1. *Provides in-principle support for the event after consideration of the proposed traffic impacts, the most prominent being;*
 - a. *Any temporary closure of Cambewarra Rd would have significant impacts to nearby residents and the local road network. There would also be potential impact to access off the Princes Highway, with queued traffic from this closure potentially backing up and encroaching onto the Highway. Council's preference is that Cambewarra Road remains open throughout the event.*
 - b. *Many of the local roads within proximity to the event site in Bomaderry have road widths of less than 7m, and when vehicles are parked on both sides of the road it reduces the remaining trafficable lane to a single direction. This scenario, with cars being unable to pass each other in two directions, will lead to*

increased traffic queuing, increased risk of traffic incidents, reduction of sight distances, reduction of stopping/braking distances. Council requires adequate measures to mitigate parking related concerns on local streets around the proposed fields.

- c. Any proposed measures along Flinders Road will require consideration towards the impacts to daily traffic and potential flow-on effect to the Princes Highway. Council's preference is that Flinders Road remain open throughout the event.
2. Will, through the CEO (Director City Services), continue to work with the event organisers "on an in-kind basis" in their endeavours to prepare a Traffic Management Plan to mitigate the traffic impacts of the event and in addition, will contribute up to \$3,000 towards the cost of the preparation of and expert Traffic Management Plan.
3. Notes that given Council's in-principle support of the prominent traffic impacts, the Shoalhaven Traffic Committee will undertake a detailed technical assessment of the proposed Traffic Management Plan.

Since this time, Council has been assisting the event organisers and their traffic management specialist (David Del Tufo / TMPACS Pty Ltd) alongside representatives from Transport for NSW to develop their proposed traffic management plan (TMP) and related traffic guidance schemes (TGS) for this event.

Council formally received the draft TMP outlining key traffic impacts and the event organiser's proposed measures to mitigate these on 8 August 2022, approximately 7 weeks prior to the event's proposed commencement. After several stakeholder meetings providing the event organisers / traffic management specialist with feedback to incorporate towards the TMP, the final version had been received on 14 September 2022.

Due to this event being classified as a 'Class 1' event in accordance with the Guide and as per item #3 from the resolution above (EM22.49), a copy of the TMP and TGS' for this event has been provided for the Committee's consideration.

Details of Submission

1. Traffic Management at Playing Fields

As previously discussed, the event will be staged over two sites, taking place at the Bomaderry Sporting Complex on Cambewarra Road ('Northern Playing Fields') and Shoalhaven Rugby Park on Flinders Road ('Southern Playing Fields'). These will be used at the following times:

Day 1: Friday, 30 September 2022	
Both Northern and Southern Playing Fields Active	
Open to Staff: 6:30am Open to General Public: 8:00am	Closed to General Public: 6:00pm Closed to Staff: 9:30pm
Day 2: Saturday, 1 October 2022	
Both Northern and Southern Playing Fields Active	
Open to Staff: 6:30am Open to General Public: 8:00am	Closed to General Public: 6:00pm Closed to Staff: 9:30pm
Day 3: Sunday, 2 October 2022	

Both Northern and Southern Playing Fields Active	
Open to Staff: 6:30am Open to General Public: 8:00am	Closed to General Public: 6:00pm Closed to Staff: 8:30pm
Day 4: Monday, 3 October 2022	
Only Northern Playing Fields Active	
Open to Staff: 6:30am Open to General Public: 8:00am	Closed to General Public: 6:00pm Closed to Staff: 8:30pm

Based on the TMP, it is envisaged that the peak event days for attendance will be between Friday 30 September to Saturday 1 October 2022. The Grand Finals will be held on Monday 3 October 2022, but will be isolated to the Northern Playing Fields.

1a. Traffic Management Solutions – Northern Playing Fields

For the Northern Playing Fields, traffic controllers will be stationed along Cambewarra Road to regulate vehicles heading in both eastbound and westbound directions past the Bomaderry Sporting Complex. In addition to this, a traffic controller will be stationed at the intersection of Barwon Street in conjunction with the controls along Cambewarra Road. Furthermore, a traffic controller will be stationed at the Shoalhaven Basketball Station to facilitate its use for the event's private purposes.

Temporary speed zone reductions have been proposed to limit speeds at 40km/h and traffic controllers will hold traffic at certain intervals to enable pedestrians to cross the road and access the Northern Playing Fields. Bus drop off areas will be coordinated on northern and southern side fronting the playing fields. The event organisers have proposed to submit a road occupancy license to disable the traffic signals operating the pedestrian crossing on Cambewarra Road.

1b. Traffic Management Solutions – Southern Playing Fields

For the Southern Playing Fields, traffic controllers will be stationed along Flinders Road to regulate vehicles heading in both eastbound and westbound directions past the Shoalhaven Rugby Fields. Temporary speed zone reductions have been proposed to limit speeds at 40km/h and traffic controllers will hold traffic at certain intervals to enable pedestrians to cross the road and access the Southern Playing Fields. Bus drop off areas will be coordinated on northern and southern side fronting the playing fields. On street parking will be restricted by temporary signage and physical barriers along Flinders Road between the intersections of Angus Avenue and Bellevue Street.

Traffic management is also required along Albatross Road at the entrance to the Archer Racetrack, which is proposed to be used for event parking and bus marshalling. Internal parking arrangements will be coordinated by traffic controllers and marshals. Temporary speed zone reductions have been proposed to limit speeds at 40km/h in both directions and traffic controllers to hold traffic at certain intervals to enable busses to enter and exit from the site. On street parking will also be restricted along Albatross Road in proximity to the Archer Racetrack using physical barriers.

2. Event Parking Management

The event organisers have anticipated for the peak event days (30 September and 1 October 2022) that a maximum of 20,000 participants and spectators will be in attendance, or 10,000 individuals split across the two sites. The event organiser predicts that the following event days (2 – 3 October 2022) will see only 10,000 attendees across both sites.

The event organisers have proposed the following sites to be used as event parking for use by participants, spectators and for designated purposes.

The event organisers have also provided justification as to how these parking areas would be used to accommodate the number of participants and spectators, under s3.1.1 of the TMP:

“This event is a competitive event, whereby once a team loses, they are gone from the competition and will leave soon afterwards. Therefore, in evaluating participant and visitor parking, we expect that teams and visitors will leave during the day once their team loses. So, our allocated parking can conservatively be doubled because as people leave, others can take their car space.

On the first two days, it is expected that there will be a maximum of 20,000 people per day including the participants. Approximately 10,000 for each area. To determine our required parking requirements, we have calculated our participating teams – 168 teams x average number of players (max 25), coaches, and staff, which averages to 32 people = 5,376 participants. It is anticipated that all the teams will be arriving by bus or buses. Buses will be parking in Country Motors car park or Archer[s] Racecourse.

We have been able to allocate over 2100 parking spaces for this event for the remaining 15,000 spectators. Due to the cultural and family aspect of this event, we are expecting an average of 3 people per vehicle. Therefore, that’s parking for 6,300 people plus we can double that because people will constantly be leaving as others arrive which equates to 12,600 visitors with allocated parking. That’s approximately 2000 people or 670 vehicles which may need to park on the street between both event areas. Again, vehicles will be leaving regularly as teams lose, so the 670 vehicles can be cut in half to 335 vehicles parking on the street or 170 per area. Both areas can easily manage street parking for over 500 vehicles.

It should be noted that after Saturday, parking requirements for this event will be drastically reduced as there will be fewer teams participating.”

The proposed event parking locations are listed below:

Northern Playing Fields (locations primarily north of Shoalhaven River)		
<u>Location</u>	<u>Estimated Parking Capacity</u>	<u>Parking Management</u>
Country Motor Group 315 Princes Highway, Bomaderry	50 parking spaces and all busses for the Northern Playing Fields	2 Traffic Marshalls
Nowra Anglican College 4 West Bunberra Street, Bomaderry	150 parking spaces	2 Traffic Marshalls
Bomaderry Highschool 127 Cambewarra Road, Bomaderry	120 parking spaces and designated parking for accessible use	3 Traffic Marshalls
Bomaderry Tafe 60 Beinda Street, Bomaderry	290 parking spaces	3 Traffic Marshalls
Bomaderry Community Centre 19 Birrely Street, Bomaderry	100 parking spaces	2 Traffic Marshalls

Public Parking 1-3 Bunberra Street, Bomaderry	48 parking spaces	No Parking Management Proposed
Bomaderry RSL 5 Bunberra Street, Bomaderry	50 parking spaces	No Parking Management Proposed
Bernie Regan Sports Field 1 West Cambewarra Road, Nowra	160 parking spaces	3 Traffic Marshalls

Southern Playing Fields (locations primarily south of Shoalhaven River)

<u>Location</u>	<u>Estimated Parking Capacity</u>	<u>Parking Management</u>
Archer Racetrack 96 Albatross Road, South Nowra	500 parking spaces and all busses for the Southern Playing Fields	8 Traffic Marshalls
South Nowra Football Grounds 15 Mumballa Street, South Nowra	150 parking spaces	2 Traffic Marshalls
Shoalhaven Netball Courts 24 John Purcell Way, South Nowra	80 parking spaces	2 Traffic Marshalls
Lyrebird Park Lot 1 DP 1127303	80 parking spaces	2 Traffic Marshalls
Nowra Showgrounds 27 West Street (and associated lots), Nowra	150 parking spaces	3 Traffic Marshalls

The event organisers have provided the following justification to coordinate parking when one area has been filled:

Visitors will be informed, via there team liaison, where they should park based on time slots... To help assist with this flow are the Parking Marshals and Team Leaders of each area. Areas will fill up differently and the marshals will notify the Team Leader how their parking areas are filling or emptying. The Team Leader will inform the Event Liaison person, who can contact the team who can then send a mass text to [their] team visitors of the best parking location. This can all happen within 10 minutes and can help reduce bottlenecks. Also, if vehicles approach areas that are full, the marshals can redirect vehicles to a specified parking area.

However, as indicated above, the event organisers propose to use on-street parking in proximity to both playing fields to accommodate any overflow vehicles outside of the allocated parking areas above. This is estimated to be a maximum of 670 vehicles across both sites. Based on the Traffic Impact Summary Reports to Council Ordinary and advice provided by Council staff to the event organisers, this situation is not to be supported as these local streets cannot accommodate the levels of on-street parking required for the event

TC22.39

at its peak attendance. Furthermore, this situation would detrimentally impact upon residential access and local businesses.

3. Public Transport

The event organisers have proposed to arrange for additional public transport options, including shuttles to and from parking areas for both Northern and Southern Playing Fields. These locations and times are demonstrated in the provided TMP.

The event organisers have also indicated that they have liaised with City Rail to provide additional train services from Wollongong to Bomaderry.

4. Emergency Access Impact:

The event organisers have ensured that access for emergency vehicles into the event site will be maintained at all times. Emergency vehicle access paths have been provided within the site, maintaining a width of no less than 3.5m and being checked by parking marshals throughout the event's duration to ensure that no obstruction occurs.

The TMP has provided an Emergency Evacuation plan for both playing fields that will be implemented in the event of an emergency. At the time of this report, the event organisers have also indicated that they are in discussions with representatives from local Fire and Rescue and Ambulance services and have established a working group to propose emergency service access and arrangements for both playing fields.

5. Community Awareness and Event Notice Signage:

The event organisers have proposed to advertise the traffic management arrangements in local print media, the event website, and social media platforms to raise awareness with the non-event community.

The event organisers have proposed to inform directly affected residents and businesses within approx. 500m of the event site of the proposed traffic impacts and road closures.

Variable message sign (VMS) boards have been proposed as part of this event, installed at strategic locations to advertise the upcoming event and proposed road closures to local traffic and residents. These are proposed to be deployed approx. 2 weeks prior to the event start date.

In addition to this, the event organisers propose to provide all attendees with a copy of the Event Map which will highlight the designated allocated parking areas, shuttle buses routes and times and drop off zones.

Risk Implications

Parking on Local Roads and Potential Congestion:

The event is proposed to take place over the October long weekend when there is traditionally a high volume of both day trippers and overnight visitors in the region. There is a 'higher than usual' risk of conflict with local residents and visitors, both to the event and tourism broadly. The event estimates 50,000+ people over the 5 days, which will potentially generate conflict between residents and visitors, competing for parking along these local roads.

As discussed above, it has been the position of Council to discourage the use of on-street parking for this event. Many of the local roads within proximity to both playing fields have road widths of <7m that when vehicles are parked on both sides of the road, reduces the remaining trafficable lane to a single direction. This scenario, with cars being unable to pass each other in two directions, will lead to increased traffic queuing, increased risk of traffic incidents, reduction of sight distances, reduction of stopping/braking distances and contravenes the TfNSW safe system framework.

TMP the 50th NSW Aboriginal Rugby League Knockout Carnival 2022

1.3 DESCRIPTION OF THE EVENT

The NSW Koori Knockout Carnival was established in 1970 by a group of Aboriginal Men determined to create a grassroots rugby league that would be run by the community for the community. During those early years, the Koori Knockout became the biggest annual event for Aboriginal peoples across NSW. The KO was also responsible for Aboriginal players to be seen and selected in the ARL. The KO is known throughout NSW as the modern day Corrooboree.

Traditionally since 1975, the winners of the Koori Knockout inherit the honour, along with their communities, local council, and business, of hosting the following year's Knockout Carnival in their community. Attracting 40,000+ Aboriginal and non-Aboriginal spectators, the Knockout, it is the largest Rugby League Knockout competition in the world and the largest sporting event involving Aboriginal people in the country.

The Knockout is very much considered a steppingstone to the professional competitions such as Jersey Flegg, Harold Matthews and onto the NRL, by the younger generation. The exceptional talent coming up through the ranks and blooded at the KO are scouted by the various NRL team's talent scouts who regularly attend the event. Those who were given the opportunity to play professional NRL football and represent the community, in a professional career, always return and play with their family and represent their community bloodlines in the NSW Koori Knockout Carnival.

TMP the 50th NSW Aboriginal Rugby League Knockout Carnival 2022

2. WORK HEALTH & SAFETY

2.1 RISK ASSESSMENT PLANS

A comprehensive risk assessment has been supplied by the South Coast Black Cockatoos (SCBC) and is attached in section 5.9.1

2.2 PUBLIC LIABILITY INSURANCE

South Coast Black Cockatoos (SCBC) has obtained Product and Public Liability Insurance (policy # PMEL99/0124247) for the sum of \$20m by Lloyds of London and a certificate of currency is attached section 7.5

2.3 POLICE

The police have been informed of the event. Mr David Cockran of Nowra Police has given approval to Greg Winchester of the Shoalhaven City Council. The approval is currently verbal and a working group is being established between NSW Police and other Emergency Services.

2.4 FIRE & RESCUE NSW

Wreck Bay Fire Brigade, and Mr McKenzie of Shoalhaven Regional Fire will attend the meeting to discuss the Fire and rescue arrangements. At this stage, a working group is being established between Fire and Rescue and other Emergency Services.

2.5 AMBULANCE NSW

The NSW Ambulance service for spectators will be managed by Mr Lahene of the Nowra Ambulance Service.

Mr Lahene of Nowra/Bomaderry Ambulance Services is currently looking at the attendance plan with Illawarra Shoalhaven Local Health District (ISHLD) and will be creating the final document by mid-July 2022.

Note:

The NRL Medical Team will also contribute and provide a plan for the Management of all Rugby League Players across the entire event.

TMP the 50th NSW Aboriginal Rugby League Knockout Carnival 2022

3. TRAFFIC & TRANSPORT MANAGEMENT

3.1 PARKING

3.1.1 General

This event is a competitive event, whereby once a team loses, they are gone from the competition and will leave soon afterwards. Therefore, in evaluating participant and visitor parking, we expect that teams and visitors will leave during the day once their team loses. So, our allocated parking can conservatively be doubled because as people leave, others can take their car space.

On the first two days, it is expected that there will be a maximum of 20,000 people per day including the participants. Approximately 10,000 for each area. To determine our required parking requirements, we have calculated our participating teams – 168 teams x average number of players (max 25), coaches, and staff, which averages 32 people = 5,376 participants. It is anticipated that all the teams will be arriving by bus or buses. Buses will be parking in Country Motors car park or Archers Racecourse.

We have been able to allocate over 2100 parking spaces for this event for the remaining 15,000 spectators. Due to the cultural and family aspect of this event, we are expecting an average of 3 people per vehicle. Therefore, that's parking for 6,300 people plus we can double that because people will constantly be leaving as others arrive, which equates to 12,600 visitors with allocated parking. That's approximately 2000 people or 670 vehicles which may need to park on the street between both event areas. Again, vehicles will be leaving regularly as teams lose, so the 670 vehicles can be cut in half to 335 vehicles parking on the street or 170 per area. Both areas can easily manage street parking for over 500 vehicles.

It should be noted that after Saturday, parking requirements for this event will be drastically reduced as there will be fewer teams participating.

3.1.2 Overview

There will be Traffic Controllers, Parking Marshals, and Volunteers on duty throughout the festival to monitor and control traffic, parking and pedestrians within the venue and designated areas.

Motorists will be encouraged to maintain a steady flow into parking areas to ensure that there is no queuing that affects the free movement of traffic on the network

Extra care must be taken by motorists to ensure pedestrian safety especially when loading or unloading of passengers, children and any equipment associated with visitors such as children's "strollers" or prams

Traffic Marshals or Traffic Controllers will direct vehicles to park in designated parking areas only as specified on the parking plan. Speed limits must be strictly observed.

Drop off and pick up:

Both areas will have adequate areas for buses to pull into the shoulder and unload or load patrons. These areas will be controlled by traffic controllers to ensure pedestrian safety and maintain traffic flow.

Parking in designated areas:

Visitors will be informed, via their team liaison, where they should park based on time slots. For example, visitors of teams playing before 10am should park at Bomaderry Tafe, between 10am to 11am; NAC between 11am to 12pm; Bernie Regans Sports Field between 12pm to 1pm. Etc.

To help assist with this flow are the Parking Marshals and Team Leaders of each area. Areas will fill up differently and the marshals will notify the Team Leader how their parking areas are filling or emptying. The Team Leader will inform the Event Liaison person, who can contact the team who can then send a mass text

TMP the 50th NSW Aboriginal Rugby League Knockout Carnival 2022 to their team visitors of the best parking location. This can all happen within 10 minutes and can help reduce bottlenecks. Also, if vehicles approach areas that are full, the marshals can redirect vehicles to a specified parking area.

Below is a list of approved parking areas:

- Refer to section 7.2 Parking Management Plan

<u>3.1.3</u>	Archers Racecourse on Albatross Rd
<u>3.1.4</u>	Rugby Field on Flinders Rd
<u>3.1.5</u>	Bomaderry High School – South Coast Black Cockatoos (SCBC), Services and Vendors Parking only
<u>3.1.6</u>	Bomaderry Tafe
<u>3.1.7</u>	Nowra Anglican College (N.A.C.)
<u>3.1.8</u>	Bomaderry RSL Club
<u>3.1.9</u>	Country Motor Group
<u>3.1.10</u>	South Coast football Field
<u>3.1.11</u>	Bernie Regan Sport Complex

TMP the 50th NSW Aboriginal Rugby League Knockout Carnival 2022

3.2 VEHICLE ACCESS FOR EVENT SITE SUPPLIERS, CONTRACTORS AND STAFF

3.2.1 General

The event will not require full road closure with no vehicle or pedestrian access.

Only authorised suppliers and contractors' vehicles will be allowed onto the site for the duration of the festival.

Speed limits and parking procedures will be strictly enforced

Suppliers and contractors' vehicles will be required to vacate the active site area at least 1 hour before the events commence and will not be allowed to return to site until the event Management has given permission.

Parking for site suppliers, contractors and staff will be available in Bomaderry High School, Archers Racecourse and Rugby Field Flinders Rd. (Refer to parking plan section 7.1)

3.3 PUBLIC TRANSPORT EVENT IMPACT

The event will increase demand for bus services, namely shuttle bus movements linking the parking facilities at allocated parking stations for the event.

Free shuttle bus services will be provided to link City Rail Trains with the venue. the bus service will run at regular intervals whilst the festival is active

Bus services will also be provided by Kennedy Buses as per schedule in this TMP. Drop off points are illustrated in section 3.4.6

3. 4 TRANSPORT ARRANGEMENTS

3.4.1 Transport Arrangements Private Vehicles

- All spectators will be given a copy of the Event Map which will highlight the designated allocated parking areas, shuttle buses routes and times, No Parking Zones and drop-off zones.
- Bomaderry Sporting Complex
- Team Coasters and buses. Approved Teams Coasters will be given access to the TAFE Parking Area if they are required to play the earl sessions.
- All other Coaster will be directed to park on Bridge Road utilising the parking spaces at the rear which will be double spaces. A shuttle bus service will be in operation from 5:30am-7pm.

Archers Racecourse and Rugby Field Flinders Rd

- Team Coasters and buses. Approved Teams Coasters will be dropping off and picking up at Rugby Field Flinders Rd and Archers Racecourse.
- All other Coasters will be directed to park at Shoalhaven City Council Depot off Flinders Rd or Archers Racecourse

3.4.2 Transport Arrangements Bus Service and Shuttle Bus Service

- City Rail Buses will be used and managed by Transport NSW which is part of their agreement.
- City Rail will also be looking at adding more train services from Wollongong to Bomaderry Nowra
- Kennedy's Coaches will also be a part of the Shuttle route from Nowra to the Event Location

TMP the 50th NSW Aboriginal Rugby League Knockout Carnival 2022

4. PEDESTRIAN MANAGEMENT AND EVENT PUBLIC ACCESS/EGRESS

4.1 GENERAL

Pedestrian management will be designed to ensure safe passage of pedestrians moving between events and public areas such as food and entertainment areas.

Directional signage will be erected to advise pedestrians of safe passageways in between festival activities

Pedestrian control Marshalls will be stationed to be able to control or direct pedestrians at peak times such as the end of a football match

Pedestrian management will be difficult to achieve within the diverse site areas, however main thoroughfares will be identified and Safety Marshalls assigned to manage high foot traffic areas at peak times where appropriate

Refer to Section 5.7

4.2 SITE SECURITY FENCING

The temporary security fencing is proposed to be installed between Thursday 16th and Monday 3rd October 2022 (t.b.c)

TMP the 50th NSW Aboriginal Rugby League Knockout Carnival 2022**Archers Racecourse and Rugby Field**

Buses will transport people from Archers Racecourse, on the south corner near Albatross Rd, and drop off at Rugby Field on Flinders Rd.

There is only one access point into Rugby Field from Flinders Rd

Archers Racecourse will have two access points into Archers field on Albatross Rd.

Bomaderry Sports Complex

Public entry points are located on Cambewarra Road on the North side between Barwon Street and N Tarawal St.

TMP the 50th NSW Aboriginal Rugby League Knockout Carnival 2022

5. CONTINGENCY PLAN

5.1 CONTINGENCY PLAN HEAVY RAIN

South Coast Black Cockatoos (SCBC) have included the contingency plan for a heavy rain event in the risk assessment document attached in section 5.9.1

5.2 CONTINGENCY PLAN CANCELLATION OF EVENT

The Event will not be Cancelled but postponed to the Following year 2023 and South Coast Black Cockatoos (SCBC) are the HOST.

5.3 CONTINGENCY PLAN COVID DETECTED

A comprehensive COVID-19 Safe Plan has been developed by South Coast Black Cockatoos (SCBC) in partnership with The Public Health Unit ISLHD, NSW Health, Sport NSW and The Shoalhaven City Council and is attached in section 5.6

6. MINIMISING THE EVENT IMPACT ON COMMUNITY & EMERGENCY SERVICES

6.1 ACCESS FOR LOCAL RESIDENTS AND BUSINESSES

Access for local residents and local business will not be affected.

Residents and business within 500m of the festival site will be informed by letter box drop of the proposed event by a minimum two week notice.

Variable Message Boards will be installed 2 weeks before the event assist in the event activity information.

6.2 ACCESS FOR LOCAL RESIDENTS, BUSINESSES, HOSPITALS & EMERGENCIES

Emergency vehicles will have unobstructed access to the event site at all times.

Emergency vehicle access paths will maintain a width of no less than 3.5 metres at all times

Vehicle site Access rules:

- Parking marshals will not allow vehicles to obstruct the path at any time

- Any vehicle that may be a hazard to emergency vehicles will be directed to move by authorised personnel

- Signage will not obstruct Emergency vehicle access paths at any time

- Emergency vehicle access paths will be checked at regular intervals by the person managing parking or vehicle flow in the event area.

6.3 ADVERTISING TRAFFIC MANAGEMENT ARRANGEMENTS

Advertising of traffic management arrangements will be local print media, the event website and social media platforms. Variable message boards are used strategically placed to advertise up-coming event to the local traffic and residents.

VMS units will be set out 2 weeks prior to the event, and they will be picked up on the 4th & 5th October.

[7.5 SOUTH COAST COCKATOOS \(SCBC\) RISK MANAGEMENT PLAN](#)

Risk Management Plan

50th Aboriginal Rugby League Knockout

Host	-	South Coast Black Cockatoos (SCBC)
Event Date	-	30 September – 4 October 2021
Venue	-	Bomaderry Sports Complex

Oluyomi Bello | PM | June 2021

TMP the 50th NSW Aboriginal Rugby League Knockout Carnival 2022

Introduction

The 50th Annual Aboriginal Rugby League Knockout (the Knockout) is being hosted by the South Coast Black Cockatoos (SCBC) at the Bomaderry Sports Complex over the October long weekend (30 Sept to 4 October 2021).

The Knockout is the largest gathering of Aboriginal people in Australia and over a five-day period, it celebrates Aboriginal culture through connection to rugby league. This year's edition will bring together over 160 aboriginal rugby league teams with competition across age groups from U-13s through to adult men and women's teams.

The Knockout is expected to attract over 10,000 people per event day.

This Risk Management Plan (RMP) has been developed within the context of:

- Hosting the most successful Knockout event yet.
- Ensuring that attendees and teams are protected from harm.
- Minimising any adverse impacts on the sports complex and its immediate environment.
- Ensuring the event delivers a positive contribution to the Shoalhaven community while enhancing the reputation of the SCBC.

Background/Event Scope

The Knockout is an annual event hosted by the winning team from the previous grand final. The SCBC won the grand final in 2019 and by extension, the rights to host the 50th edition of the Knockout in 2020 on the South Coast of NSW. The widespread impacts of the COVID-19 pandemic meant the event had to be postponed by a year.

Event Ceremonies and Rugby League Program

Event activities will kick off with an official public draw of the games in the last week of September. Matches in the Women and Youth draws will holder over Thursday 30 September and Friday 1 October. They will be preceded by an opening ceremony before the first games.

The official Opening Ceremony for the event will be held on Saturday 2 October 2021. This will be preceded by a cultural men's only gathering hosted by the SCBC and local Aboriginal Elders.

Matches in the men's draw will be held over Saturday 2 and Sunday 3 October 2021, with the semi-finals, finals and Grand Final held on Monday 3 October.

Other Programs and Activities

- Outdoor Cinema – to run movies for specific age groups
- Free children's basketball program – Shoalhaven Indoor Sports Centre
- NDIS sensory program
- Outdoor pool is open to all attendees.
- Food meeting place (Nyully Gunyah) open to all attendees

Oluyomi Bello | PM | June 2021

Location	-	Bomaderry Sports Complex 111A Cambewarra Road Bomaderry NSW 2541

Definitions

Risk – The chance of something happening that will have an impact on objectives.

Risk Assessment – The overall process of risk identification, risk analysis and risk evaluation.

Risk Management – The culture, processes and structures that are directed towards realising potential opportunities, whilst managing adverse effects.

Risk Reduction – Actions taken to reduce the likelihood, negative consequences, or both, associated with a risk.

Risk Acceptance – Risk acceptance is the acknowledgement that there is a risk and of the consequences that may result, which is accepted.

Oluyomi Bello | PM | June 2021

TMP the 50th NSW Aboriginal Rugby League Knockout Carnival 2022

Risk Identification

To enable a risk assessment that covers the various activities involved in planning for the event and activities on event days, the following risk groupings has been used to identify the various risks applicable to the hosting of the Knockout:

- People-related risks
- Health-related risks
- Risks related to technical set up
- Accessibility and Vehicular risks
- Environmental Risks
- Waste management risks

Risk Assessment

This RMP includes a risk rating for identified risks and/or hazards that allows SCBC prioritise and address risks in a systematic way. This includes a process that considers the likelihood of a risk occurring and the consequence or extent of harm via a risk assessment matrix.

Likelihood Table

Likelihood	Description
1 - Rare	May occur only in exceptional circumstances
2 - Unlikely	Could occur at some time
3 - Possible	Should occur at some time
4 - Likely	Will probably occur in most circumstances
5 – Almost Certain	Expected to occur in most circumstances

Consequence Table

Consequence	Description
Very Low	<ul style="list-style-type: none"> • No injuries • No financial loss
Low	<ul style="list-style-type: none"> • First aid treatment • Temporary suspension of event • Medium financial loss
Medium	<ul style="list-style-type: none"> • Medical treatment required • Suspension of event requiring external assistance (fire, police)
High	<ul style="list-style-type: none"> • Extensive injuries • Suspension of event requiring investigation and outside assistance (ambulance, fire, police)
Very High	<ul style="list-style-type: none"> • Death • Catastrophic financial loss

Risk Assessment Matrix

	Consequence				
Likelihood	Very Low	Low	Medium	High	Very High
5 – Almost Certain	Moderate	Moderate	Significant	Extreme	Extreme
4 - Likely	Minor	Moderate	Moderate	Extreme	Extreme
3 - Possible	Minor	Minor	Moderate	Significant	Extreme
2 - Unlikely	Minor	Minor	Moderate	Moderate	Significant
1 - Rare	Minor	Minor	Minor	Moderate	Moderate

Oluyomi Bello | PM | June 2021

Risk Rating

Risk Rating	Description
Minor	Risks tolerated and managed by routine procedures.
Moderate	Risks are managed by event management team
Significant	Risks are monitored by senior event management/organising committee
Extreme	Immediate action is required

Bridge Road Carpark

Notes:

1. Local constraints may not allow signage and devices to be placed in accordance with this TGS
2. Signs and devices are to be positioned in accordance with the tolerances shown in Section 7.10.3 of the TCAWS Version 6.0 2020
3. This TGS is suitable for short term works
4. This is a site specific designed TGS
5. The value of speed limit signs shall match the speed zone approval
6. Traffic Control Officer must maintain 1.5M from live traffic unless a risk assessment has been conducted
7. Ensure all approval requirements have been met prior to setup
8. Cover all conflicting signage where required
9. This site MUST comply with the TCAWS Version 6.0 2020 and AS 1742.3 (MUTCD) 2009
10. B Size signage must be used for all permanent Sites
